To our sponsors, families, and friends of the benefit: March 5, 2019

This year's Corey James Memorial Good Time Benefit is scheduled for April 27th, 2019 at Wild Ace Pizza in Greer and we are asking for your continued support! We are deeply appreciative of each and every contribution that allows us to support this year's children:

Maddie was diagnosed with Leukemia on December 4, 2018. She is a precious four year old girl. She has begun a long journey of surgery and chemo treatments. Her parents Geoffrey and Hannah also have a smaller one to take care of at home. Please help to ease that burden for them.

**Maddie, age 4,
diagnosed with Leukemia**

**Ellie, age 7, battling her
second round of childhood cancer**

Ellie is the true definition of a fighter. This 7 years-old is fighting her second battle with childhood cancer. Her first battle was when she was 2 years-old. She had to go out of state for surgery at 2 years old due to the tumor being so close to her heart. Thankfully a doctor was brave enough to perform the surgery and she recovered 4 years later. Unfortunately a new tumor developed, this time on her brain. She's had two surgeries and lots of chemo. Ellie has a younger sister & brother who are staying with their grandma while she receives treatment.

**Nylah, age 3,
diagnosed with Leukemia**

Nylah was recently diagnosed with childhood leukemia and has a long road ahead. Nylah has an older sibling in the home and needs all the prayers we can gather.

Zoe, age 5, battling HLH with EBV

Hemophagocytic lymphohistiocytosis (HLH) is a rare disease of the immune system. Zoe has EBV all in her little body. She has been given chemo to kill this off. Zoe will need T cell replacement therapy soon but she is doing well, and so much more herself and playful at present time. She is tube fed nightly and she some days eats by mouth but will continue tube feedings for a long time.

With all our love and heartfelt thanks,

The Corey James Memorial Good Time Benefit
